4.		Favor	Caroline C Ingram	I am in favor of financial assistance to immigrants. Immigrants continued working through the pandemic risking their safety and their families safety and this country is in-debt to these families. Pandemic or no pandemic, undocumented immigrants make significant contributions to this country and providing a clear pathway to citizenship would not only benefit their families but also increase wages for all American workers, create hundreds of thousands of jobs, and increase tax revenue (as supported by studies done by the University of California). I am strongly in favor of financially supporting immigrants here in LA County and also increasing our efforts to provide a clear pathway to documentation.

			Erik Garcia	As a supporter of the Immigrants Are LA coalition, I want the Supervisors to increase their support for the 3 million-plus immigrants affected by COVID-19, who haven't received sufficient support from the federal, state, and local recovery efforts. These essential workers have been on the front lines in keeping LA County going and are crucial to our recovery efforts. I urge the Board to prioritize them when making recommendations for the second round of American Rescue Plan funding by supporting: Direct cash assistance,  Food stimulus,  Legal support,  Community service navigators,  and other initiatives recommended by the Immigrants Are LA coalition.
			Gaby Hernandez	As a member organization of the Immigrants Are LA coalition, I want the Supervisors to increase their support for the 3 million-plus immigrants affected by COVID-19, who haven't received sufficient support from the federal, state, and local recovery efforts. 			Maribel Cruz	As a District 4 resident, I urge the board of supervisors to invest in immigrant communities. This is the time to show LA county residents that the board of supervisors is listening to community needs. I want to see the ARPA funds invest in direct financial assistance to immigrant families who were excluded from state and federal relief programs. I also want to see free universal legal representation for LA county residents facing deportation, and finally, I want to have resources funded that will help tenants navigate the court system and to help create a rent assistance program. This is the time to invest in immigrant communities.

4.		Favor	Stacy Macias	As a supporter of the Immigrants Are LA coalition, I ask that the Supervisors increase their support for the 3 million-plus immigrants affected by COVID-19, who haven't received sufficient support from the federal, state, and local recovery efforts. These essential workers have kept LA County functioning and are crucial to our recovery efforts. I urge the Board to prioritize these communities in their second round recommendations of American Rescue Plan funding. This translates into supporting direct cash assistance, food stimulus, legal support, community service navigators, and the initiatives advanced by the Immigrants Are LA coalition. Thank you, in advance.
